

IOHA

INTERNATIONAL SCIENTIFIC CONFERENCE
28th SEPTEMBER - 2nd OCTOBER 2010
ROMA, Italy.

THE EVENT

IOHA is pleased to announce its 8th International Congress to be held in Roma in 2010. The event is organised by AIDII, the Italian Association of Industrial Hygienists on behalf of IOHA and, as co-organisers, INAIL and ISPESL, the two Italian institutions responsible for the prevention and insurance of occupational risks.

The Congress will bring together an international panel of experts to discuss social responsibility strategies for the decade of 2010-2020, to occupational hygiene methods and tools needed in countries with different levels of industrial development, and to discuss current occupational hazards related to new emerging technologies and social scenarios.

Roma 2010 represents a fundamental step towards ensuring that industrial hygienists play a leading role in the new integrated markets of Environment, Health & Safety, adapting their professional profile to new requests emerging with Social Responsibility, Sustainable Development and the increasing complexity of a multidisciplinary scenario.

PROGRAM TOPICS

The definitive topics will be published on the website. They will address both traditional issues of industrial hygiene and new "frontier topics" with a bridge function towards innovation and the integration of competences.

Examples of possible topics to be addressed by the Congress are:
